Feilding 4775  
Manawatu

**PHILIP LEATHER**  
DIRECTOR

**CAMERON BEVERLAND**  
GENERAL MANAGER

**AIMEE SCOTT**  
CONSTRUCTION MANAGER

Established in 1982, we're a New Zealand family-owned business operating throughout the greater North Island for over 40 years.

# Why **BUILT**smart® Classrooms?

## **BUILT** affordable

We have designed a selection of transportable classrooms and toilet blocks with great specifications aimed at providing you with the most cost-effective building options available.

## **BUILT** to completion

All classrooms are built to completion—you can view and purchase your new classroom in our factory and we'll organise it to be transported to your site. The build time is 8 weeks from the confirmation of your order.

## **BUILT** better

BUILTsmart transportable classrooms are constructed with durable New Zealand-accredited materials. A selection of add-ons are available such as breakout, art and science rooms, whiteboards, art benches, stadium stairs, ramps, handrails and much more.

## **BUILT** to transport

BUILTsmart classrooms are pre-built in Huntly and Feilding and transported throughout the North Island of New Zealand. Transport costs and installation vary between building sites, so they are not included in the classroom price. We can provide a quote for this once we have the required information.

## **BUILT** to last

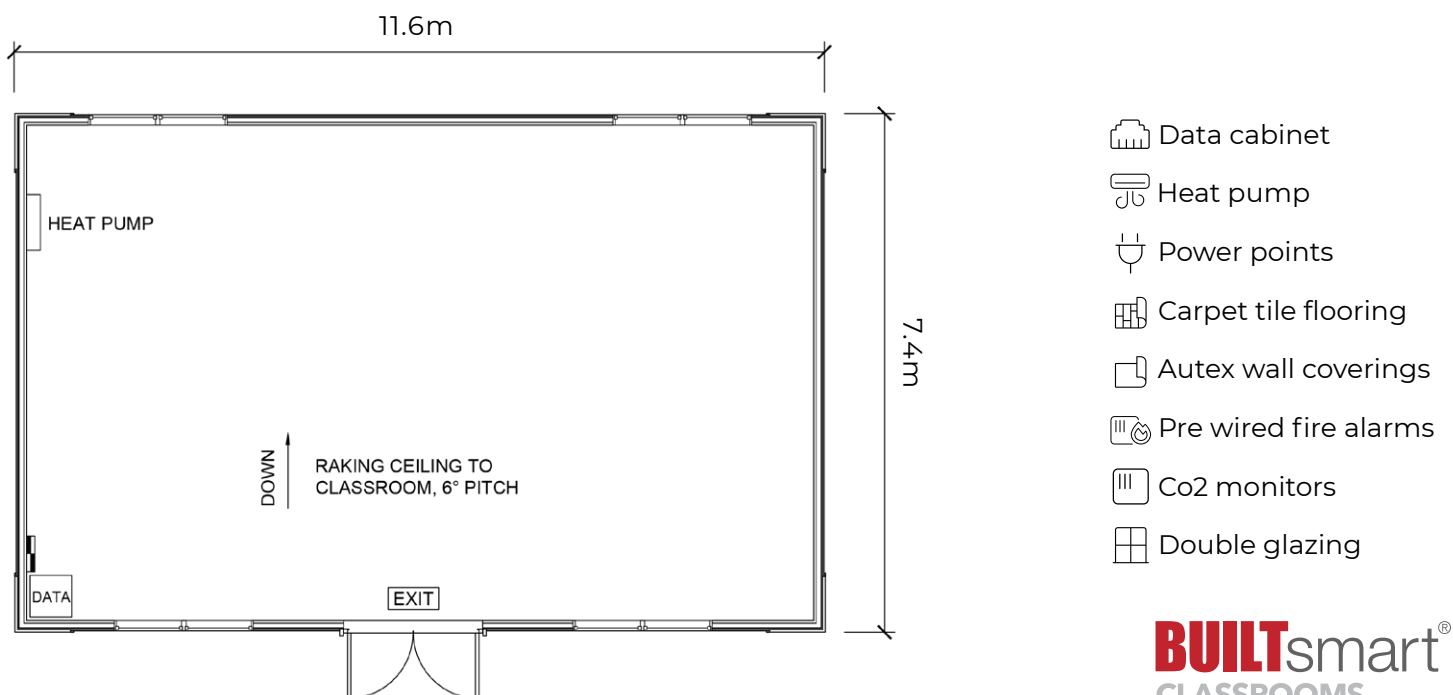

We use BRANZ accredited floor, wall, and ceiling systems in our transportable classrooms. The wall and ceiling panels are 2.4m x 7.2m long, which create the structural and bracing elements. BUILTsmart transportable classrooms meet all the New Zealand Building Code requirements.

# SINGLE LEARNING SPACE 83 sqm

Step into a single learning space that embodies the essence of New Zealand craftsmanship and sustainability. From the foundation to the finishing touches, this innovative classroom is constructed entirely from locally sourced materials.

This single learning space is a testament to the belief that a well-crafted environment can significantly enhance the educational experience. Large windows strategically capture the ever-present Kiwi sunlight, creating a bright and inviting atmosphere.

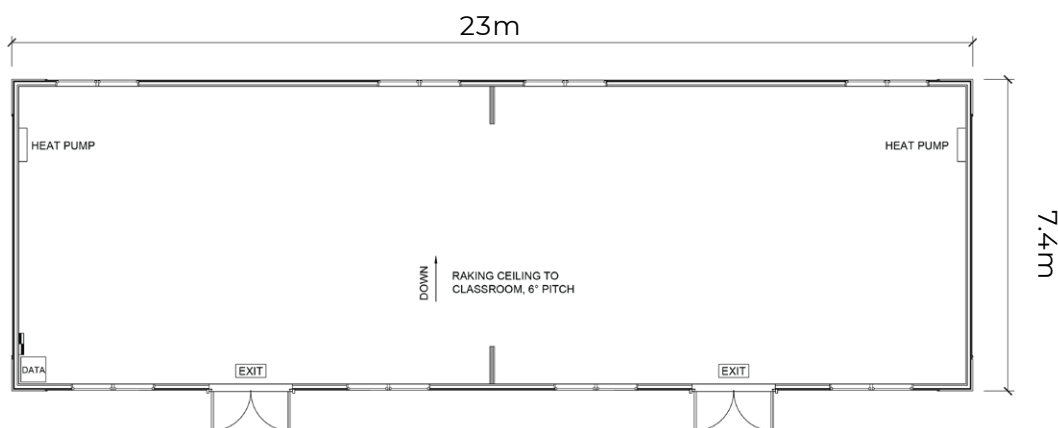

# DOUBLE LEARNING SPACE 166sqm

The double learning space stands as a testament to efficient design and quality construction.

Built with ample room to facilitate collaborative learning, the expansive layout allows for versatile configurations to accommodate various educational activities.

The walls can be covered with educational displays, art and student work, showcasing a celebration of achievements. In this thoughtfully designed double learning space classroom, simplicity meets quality to create an optimal environment for student engagement and academic achievement.

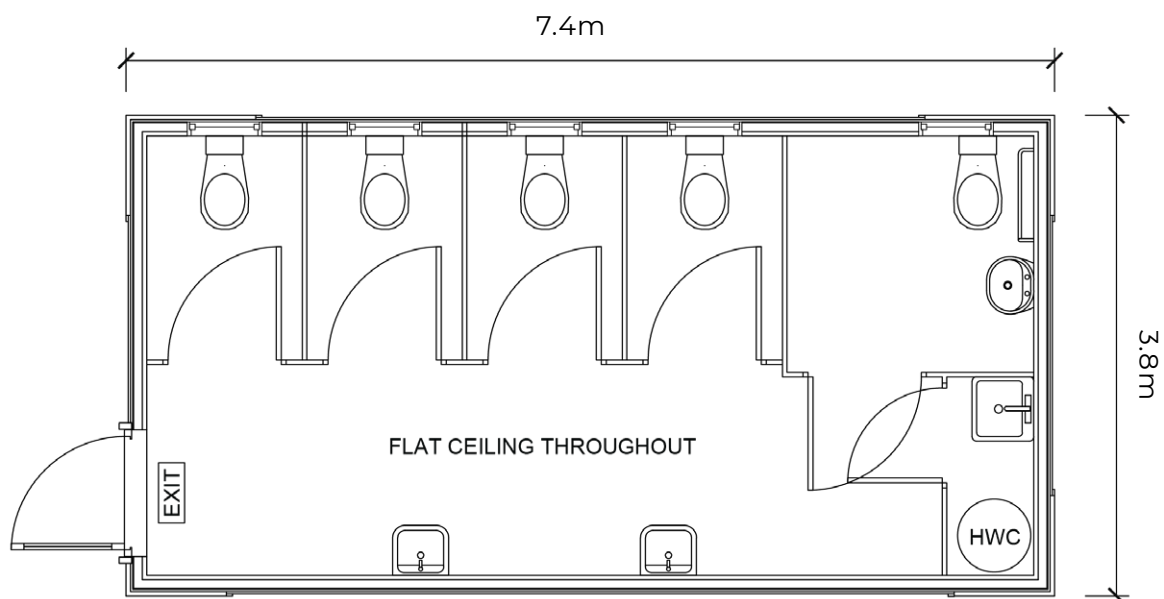

-  Data cabinet
-  Heat pump
-  Power points
-  Carpet tile flooring
-  Autex wall coverings
-  Pre wired fire alarms
-  Co2 monitors
-  Double glazing

# TOILET BLOCK

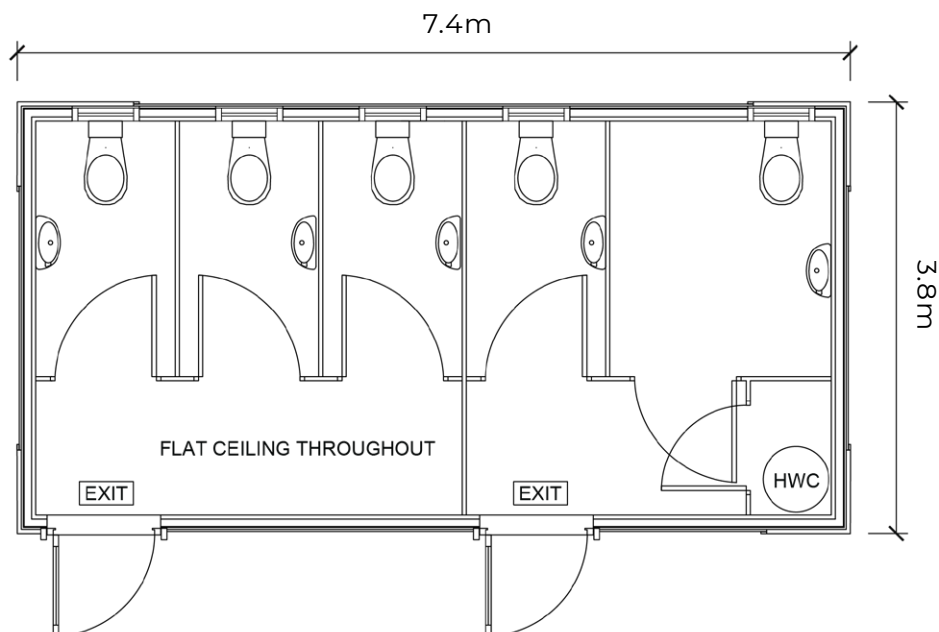

Wheelchair accessibility has been seamlessly integrated, with ramps and spacious interiors designed to accommodate individuals with diverse mobility needs. The highly durable materials used in this toilet block allow for a hygienic space with low maintenance.

# TOILET BLOCK

Thoughtfully designed, the facility features separate entrances for different genders, ensuring privacy and comfort for all users. The toilets, sinks and exterior are all constructed from top New Zealand-accredited materials, not only prioritising sustainability but also reflecting our commitment to providing a lasting and hygienic facility for the school.

# BUILTsmart® Options

## **WHITEBOARDS**

With the option to have a whiteboard with lockable cupboards below, this creates a huge amount of secure storage, with two different sizes of 2.4m x 2m and 3.6m x 2m.

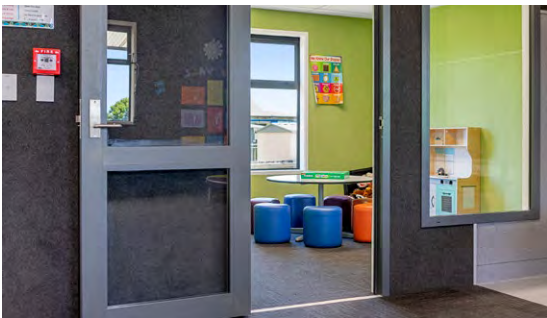

## **STADIUM STEPS**

Stadium style steps can run the length of the building to create great easy access to the classrooms.

## **DOUBLE DOORS**

Double doors and partition walls can be added to create separated learning spaces.

## **BREAKOUT ROOMS**

Break out rooms create a great space separate from the main area of the building, these are 3.6m x 3.6m.

## **OTHER CONFIGURATIONS**

Art Room ■ Carving Room ■ Science Room ■ Office Block ■ Library Block ■ Art Bench ■ Stadium Steps ■ Handrails ■ Accessible Ramps ■ Verandas ■ Whiteboards and Whiteboard Cupboard Units

We can build your complete school in our facilities

# BUILTsmart® Frequently Asked Questions

## **Are transport and foundations included in the classroom price?**

The costs for transport and foundations are site-specific and, therefore not included in the classroom price. These costs are determined during the quoting stage and upon investigation of the Geotech report. For initial enquiries, we can provide indicative costs for transport and foundations.

## **How long does it take to build a classroom?**

Once the consent has been issued, our construction time is generally 8 weeks.

## **Do you organise the building consents?**

Our classrooms come with a building Code of Compliance for the classroom itself, however an on-site consent is required from the local council in the region the classroom is being moved to. This is necessary to demonstrate compliance in different regions throughout the North island. We can organise the on-site consent where required and have a dedicated person who specialises in on-site consent applications.

## **Do I need to make an appointment?**

If you have a site already and you're ready to explore the possibility of a transportable classroom, your next step is to make an appointment with a knowledgeable representative from Builtsmart to help guide you through the process. As our factory is a construction site, all visitors must follow our Health & Safety policies and procedures. i.e. wear appropriate footwear and clothing. Children under the age of 16 years are not permitted in our factory.

## **What sort of guarantees do you offer?**

BUILTsmart provides product guarantees for all materials and items used in the construction of the classroom. In accordance with the Building Act, we provide a 10-year workmanship guarantee.

## **Purchasing a completed stock classroom?**

When purchasing a completed BUILTsmart transportable classroom from any one of our factories, we will require a one-off payment in full; prior to the classroom leaving the yard. Terms and conditions apply.

# BUILTsmart<sup>®</sup> Transport Division

At **BUILTsmart**<sup>®</sup> we are not just revolutionising the way classrooms are built; we're transforming the entire process, from construction to delivery. We stand by our unwavering commitment to innovation and customer satisfaction.

With over 40 years of experience in the construction industry, we bring a wealth of expertise to every aspect of the process. Our skilled drivers and transport professionals ensure that your building's journey is in the best hands possible.

From the initial design and construction to the final delivery, we offer a comprehensive and seamless service. We manage every step of the process to ensure that your classroom is delivered on time and with the utmost care.

## TRANSPORT AND DELIVERY

The Project Manager, in conjunction with the transport team, will determine and confirm a transport date for the classroom. This allows for proper planning and scheduling of the necessary resources and equipment to ensure successful delivery.

Additionally, transit insurance is included in the Building Contract. Transit insurance provides an added layer of protection and peace of mind during the transportation process.

Quality from start to finish
